

260 GT

260 GT® is a street-legal, oxygenated, unleaded gasoline designed for high performance street cars, muscle cars, classics, street rods, motorcycles, and the like. With a 100 octane rating, Sunoco 260 GT will allow increased boost levels in supercharged or turbocharged applications compared to lower octane “pump” gas. Sunoco 260 GT will not harm catalytic converters or oxygen sensors. 260 GT contains a comprehensive additive package for greater engine protection and reduced fuel system deposits. It is compatible with two-stroke synthetic and mineral-based engine oils. 260 GT is safe for carbureted and fuel injected engines. As with any gasoline, it should be stored in opaque, tightly sealed containers and kept where temperatures are stable. Properly stored, the shelf life of 260 GT is in excess of 1 year. 260 GT is not street legal in California and other areas that requires fuel to comply with California Air Resources Board regulations. If you need a fuel that is California Air Resource Board compliant (street legal in CA), you want [SS 100](#).

DISCLAIMER:
Legal in California only for racing vehicles in sanctioned racing events.

LEGAL:
Most states

TECHNICAL DETAILS

Color	Not Dyed
Octane (R+M)/2	100
Research Octane	105
Motor Octane	95
Specific Gravity	0.734
Weight (lbs/gallon)	6.1
Reid Vapor Pressure	6.4
10% Evaporation	145
50% Evaporation	211
90% Evaporation	216
Stoichiometric Air/Fuel Ratio	14.1
Oxygen (Weight%)	3.7
Ethanol (Volume%)	9.8
HC Ratio	2.02
OC Ratio	0.034
Lower Heating Value (Btu/Pound)	17900
Lower Heating Value (Btu/Gallon)	109200
Leaded	No

APPLICATIONS

Asphalt Oval	Muscle Cars and Vintage Cars
Boats and Personal Watercraft	Off-Road
Dirt Oval	Off-Road Motorcycle and ATV
Drag	Rally
Karts	Road Course
Miscellaneous Nitrous, Superchargers, Turbochargers	Snowmobiles
Motorcycle Road Course	Truck and Tractor Pulling

SANCTIONING BODIES
